INDEX OF SUBJECTS AND AUTHORS

Animal experiments in immunity and treatment of tuberculosis with cell poison obtained from sputum, 674

ARCHIBALD, EDWARD. The rôle of surgery in the treatment of intestinal tuberculosis, 449

Are sanatoria worth while? 663

Autonomic disturbance, A study of the signs and symptoms of, occurring in pulmonary tuberculosis, 289

Bed rest, The importance of prolonged, in the treatment of pulmonary tuberculosis, 637

BEGGS, WILLIAM N. Induced pneumothorax in pulmonary tuberculosis. Its present status, 509

BIGGS, HERMANN M. A war tuberculosis program for the nation, 257

BILLINGS, BERNICE, W., AND HAWES, II, JOHN B. Are sanatoria worth while? 663

Blood, The cultivation of tubercle bacilli from the circulating, in miliary tuberculosis, 598

BROWN, LAWRASON. Tuberculosis theses—diagnostic, prognostic, therapeutic, 193

BURNS, NEW LL B Y. Some experiments with tuberculous sputum twenty-two years old, 484

BUSHNELL, COLONEL GEORGE E. The diagnosis of tuberculosis in the military service, 325

Calcification, A case of intrathoracic cyst with, 129

Case of recurrent pneumothorax, A, 109

Cell poison, Animal experiment in immunity and treatment of tuberculosis with, obtained from sputum, 674

Chests, Clinical observations derived from the examination of over three thousand, checked by stereoroentgeno rams, 489

Children and adults, Standards for the diagnosis, classification and treatment of tuberculosis in, 622

Chronic non-tuberculous lung infection, 16

Circulation, The cone and collateral, in pulmonary tuberculosis, 498

Classification of pulmonary tuberculosis, The, 1

Climatic conditions, Group studies in tuberculosis under different, 83

Clinical observations derived from the examination of over three thousand chests checked by stereoroentgenograms, 489

CLOUGH, MILDRED C. The cultivation of tubercle bacilli from the circulating blood in miliary tuberculosis, 598

Comparison of physical signs, symptoms and X-ray evidence obtained in pulmonary tuberculosis, A, 709

Complement fixation phenomenon, A comparison between the skin tests, using various tuberculosis antigens, and the. 654

Cone and lateral circulation in pulmonary tuberculosis, The, 498

CORPER, H. J. The reaction of the local tubercle. A method for determining the value of indirect therapeutic agents in tuberculosis, 407

——, AND PESCHMAN, R. J. Experimental investigations of tuberculous peritonitis and the effect of pneumoperitoneum, 165

——, GEKLER, W. A., AND SWEANY, H. C The Wassermann and luetin reactions in tuberculosis, 544

CRAIGHEAD, Jos. W., AND MARSHAK, M. I. A case of recurrent pneumothorax, 109
Spontaneous pneumothorax during the course of induced pneumothorax, 540

Cyst, A case of intrathoracic, with calcification, 129

Deductions from four and one-half years' use of artificial pneumothorax in the treatment of pulmonary tuberculosis, 522

DeWitt, Lydia M. Gold therapy in tuberculosis, 424

Diagnosis and clinical symptoms—Intestinal tuberculosis, 451

—— of pulmonary tuberculosis, The, 206

—— of tuberculosis in the military service, The, 325

Douglass, S. A., and Harris, J. E. J. Tuberculosis and pregnancy. A study of three hundred cases with a review of the literature, 478

Dunham, Kennon. Clinical observations derived from the examination of over three thousand chests checked by stereoroentgenograms, 489

——. The cone and collateral circulation in pulmonary tuberculosis, 498
